## **Continuation Sheet (PTOL-303)**

Continuation of 2. NOTE: The proposed amendment raises new issues for consideration by presenting new claims that have a different scope and different limitations as the finally rejected claims. The finally rejected claims comprised an electroless plating bath, an electroplating bath, and a transfer mechanism. The propsed claims do not have an electroplating bath or an electroless plating bath in the independent claim. Furthermore, the new claims add new features such as a frame, a load/unload unit, and a plurality of processing units. These new limitations require further consideration and additional searching.

Continuation of 5. does NOT place the application in condition for allowance because: Applicant's arguments are directed towards the new claims, which were not addressed in any previous Office action. The arguments do not address the limitations presented in the finally rejected claims, and are therefore not persuasive.
